The Sub-Committee appreciates the time and effort that its visitors put in to reports and presentations, and the 2019/20 was hugely informative. During the 2020/21 programme, the Health, Care and Wellbeing Overview and Scrutiny Sub-Committee wants to dig deeper and develop its understanding of the challenges faced by the health and social care system as a whole. Report-writers are reminded to pay close attention to the scope for each item, and the Sub-Committee would ask that every appropriate report covers the following points in addition to those in the relevant scopes:

- The organisation’s most important recent achievements.
- Key risks facing the organisation.
- Financial planning and sustainability.
- Financial pressures and gaps this year and next year.
- Performance in relation to constitutional targets.
- Gaps in service and impact on East Riding residents.
- What is working well/not working well.
- Workforce challenges.
