Give your reasoned case as to how the evidence submitted with this application proves on the balance of probabilities that a Definitive Map Modification Order should be made to amend the Definitive Map and Statement

Crosslands Lane is shown on the Nth Cave Tithe map which shows it is still in its same place. It is shown on the 1829 Bryant map which was produced for the travelling public to know which roads they could take their carriages on. It is on the list of streets which show it is public. Today it is walked and driven on. Therefore it should be shown on the definitive map as a Restricted Byway under the NERC Act 2006.
