Dear Mr Berkeley

## East Riding Local Plan

As I am sure you will already be aware, the Council formally adopted the East Riding Local Plan Strategy Document at its meeting on 6 April 2016. This represents a significant milestone for the authority and comprises a considerable body of work that will help to meet the needs of the local community over the coming years.

The Council has subsequently notified all relevant interested parties that the Strategy Document has been adopted. However, this has generated numerous enquiries regarding progress with the Local Plan Allocations Document. At present we have not been able to provide any indication, to members of the public, town and parish councils, developers or their agents, of when the examination in public of the Allocations Document may conclude.

I noted in your previous letter (dated 17 December 2015) that you aimed to issue your report for the Allocations Document in the early part of the year. Therefore, I am hopeful that the examination process is nearing completion. It would be helpful if you could provide an updated indication of the likely timescale within which we could expect to receive your report on the Allocations Document.

Please do not hesitate to contact me if there is anything the Council can do to expedite progress with the examination in public of the Allocations Document.

Yours sincerely

John Skidmore  
Director of Corporate Strategy and Commissioning
